## From Foal to Grand Prix

Part 3

By Klaus Balkenhol

Klaus Balkenhol is the former chef d'équipe of the US dressage team, and is a key figure of the international dressage world. His impressive record at the highest levels of world competition, includes two Olympic gold medals and an individual bronze (on an ordinary police horse), along with innumerable German, European, and World Cup wins.

Part 3 demonstrates the schooling methods by which famous horse & rider combinations were brought along, including Guenter Seidel & Debbie McDonald. Each required an individual approach, but the training methods used are always rooted in the basics. This produces a performance that exudes ease, and is when riding becomes an art.
