Stephen Clarke, FEI "O" International Dressage judge

This unique video format shows a variety of dressage horses performing the same individual movements, one right after another, and discussing the scores given & comments for each. This video is a great tool for learning what is expected in the performance of a specific movement, what type of performance results in what type of score given, and the common errors seen.

Stephen Clarke represented Great Britain in International dressage competitions from the 70's until the early 90's. Now an "O" judge & trainer, he has recently been appointed to serve on the FEI Dressage Committee judging International competitions around the world.
